ABSTRACT

This research aims to describe the linguistic form of expressive utterancesand describe the intentions of expressive utterance in status updates on social media Blackberry Messanger (BBM) used by students of STKIP PGRI Tulungagung. It is descriptive qualitative research which the writer uses documentation and observation method as the method of collecting data. The type of this research is descriptive qualitative research which the writer uses documentation and observation method as the method of collecting data. There are 20 data of expressive utterance. There are seven kinds of expressive utterance from fifty data found in status update BBM. They are word, verb phrase, adjective phrase, noun phrase, declarative sentence, impertive sentence, and exclamatory sentence. The types of expressive utterance found in status update on BBM dominated by declarative sentence. The intention of expressive utterance are yearning, anger expression, welcoming, congratulating, tiredness, hoping, happiness, love, thanking, sadness, sorrow, worrying, like, dislike, apologizing, pleasure, shock, and longing.

Key word: *expressive utterance, status, Blackberry Messanger*

INTRODUCTION

Humans use language to express inner thoughts and emotions. Language is a tool to communicate and to formulate humans intent, with communication, people can express all that their feel, protest, thank, apologize, promise and express their think and know to others.

An action performed via utterances is generally called speech acts.Kreidler (1998: 26) states that an utterance is "an act of speech or writing; it is a specific event at a particular time and place and involving at least one person, the one who produces the utterance, but usually more than one person". The form of the utterance can be in the form of word, phrase,clause and sentence. Speech acts are acts of communication. Speech act can be anlyzed on three levels, the locution (the actual or literal meaning of the utterance), the illocution (the meaning intended by the speaker), and the last is perlocution (the effect of those words on the hearer). Every utterance both spoken and written is speech act of human. One of the human communication ways in social media website is by writing statuses on BBM. The statuses are human speech acts under writing. Humans use language to express inner thoughts and emotions.

Language is a tool to communicate and to formulate humans intent, with communication, people can express all that their feel, protest, thank, apologize, promise and express their think and know to others. Crystal (2000: 212) defines "language as the systematic conventional use of sound, sign, or written symbol in human society for communication and self-expression". It means humans can express what their feeling or thinking through utterances which is an expressive utterance. According to Searle (in Levinson, 1983: 240) expressive utterances are utterance used to express a psychological state. Paradigm cases include, for instance, 'thanking', 'apologizing', 'welcoming'.

An action performed via utterances is generally called speech acts. Kreidler (1998: 26) states that an utterance is "an act of speech or writing; it is a specific event at a particular time and place and involving at least one person, the one who produces the utterance, but usually more than oneperson". The form of the utterance can be in the form of word, phrase, clause and sentence. Speech acts are acts of communication. Speech act can be anlyzed on three levels, the locution (the actual or literal meaningof the utterance), the illocution (the meaning intended by the speaker), and the last is perlocution (the effect of those words on the hearer). Every utterance both spoken and written is speech acts of human. One of the human communication ways in social media website is by writing statuses on BBM. BBM is an online social networking tool in which users post 140 character updates of what is going on in their lives along with links to things they think are interesting, funny, or useful to their followers.

The statuses are human speech acts under writing. Yule (1996: 53) says that expressive are those kinds of speech acts that state what the speaker feels, for instance thanking, pleasure, displeasure, apology, codolance, pain, like, dislike, joy, sorrow and so on. Pragmatics is the study to understand another speaker's intended meaning related to the context. Mey (2001: 175) propose that "Pragmatics is the study of humans communicatively using language in the context of society." Leech (in Peccei, 1999:7) states that "pragmatics can be usefully defined as the study of how utterances have meanings in situation". From the definition, the writer summarizes that the main point of pragmatics is the study to understand another speaker's intended meaning related to the context.

Status For BBM is a great way to get a lot of attention without having to reveal personal information about you feelings or activities; something many people don't feel comfortable with.

They are also not hard to come up with. They can be funny comments about news events, sports, funny quotes, or just clever twists on things that happen in everyday life. Here are some examples of some different Good BBM Status that you can use to brighten your social networking community's day.

Statement of the Problem

What are kind of expressive uterance update statutes on BBM made by the students of STKIP PGRI Tulungagung?

Objective on the Research

To find some expressive utterances in the status BBM made by the students of STKIP PGRI Tulungagung.

RESEACH METHOD

The writer uses observation and documentation to collect the data.The type of this study is descriptive qualitative. The descriptive qualitativeresearch means a type of research in which it does not include anycalculation or enumeration (Moleong, 2004: 11)The object of the study is expressive utterance on Blackbarry Messanger (BBM) statuses updateused by students sekolah Tinggi Keguruan dan Ilmu pendidikan (STKIP) PGRI Tulungagung. The data ofthis research are written utterances made by students of EnglishDepartment in Sekolah tinggi keguruan dan Ilmu Pendidikan (STKIP) PGRI Tulungagung. The data source of this reseach from statues of Blackberry Messanger account Anis Tijee.

RESEARCH FINDING AND DISCUSSION

The writer analyzes the linguistic form of expressive utterance by using the theory of Morley and Frank. There are five expressiveutterances, they are: word, phrase, declarative, imperative, exclamatorysentences. In her research, the writer found five forms of expressiveutterance. There is no expressive utterance found in the status update that show subordinate phrase, genitive phrase, clause and interrogativesentence. So, in the finding in her research is different with theory that recognized by Morley (2000) and Frank (1972). In her research the writeronly found four of phrase, three of sentence and in the theory there areseven forms of phrase and four forms of sentence.

There are seven kinds oflinguistic form of expressive utterance found in status update on BBM.The linguistic form are word, noun phrase, verb phrase, adjective phrase,declarative sentence, imperrative sentence, and exclamatory sentence.Based on the table above the writer finds that the most of expressiveutterances of status update on twitter are in the form of declarativesentence. There are seven kinds of expressive utterance from fifteen datafound in status update on Blackberry Messanger . They are word , verb phrase,adjective phrase, noun phrase, declarative sentence,impertive sentence, and exclamatory sentence.According to the theory from Searle (1976), he recognizes fivetypes of general basic kinds of speech acts: declarative, representative,expressive, commisive and directive. He identifies five categories ofspeech act based on the intention assigned to them: declarative(excomunicating, declaring, war, christening, firing from employment) representative (asserting, concluding), expressive (thanking, apologizing,welcoming and congratulating), commisive (promising, threatening, offering), and directive (requesting, questioning, commanding, suggestion). So, in her research, the finding is different with the theoryfrom Searle (1976). The result of findings from the data of expresssiveutterance in the status update on media social twitter are expressingyearning feeling, expressing anger feeling, expressing welcoming,expressing congratulating, expressing tiredness, expressing hoping,expressing happiness, expressing love, expressing thanking, expressingsadness, expressing sorrow, expressing worrying, expressing like,expressing dislike, expressing condolence, expressing apologizing,expressing pleasure, expressing longing and expressing shock. While inthe theory there are four expressive. The writer also analyzes the data ofexpressive utterances by using the theory from Austin (1983). The theorydeals with locutionary act and illocutionary act which come from the userof BBM account.

The writer finds 19 types of expressiveutterance, the intention of expressive utterance are yearning, anger expression, welcoming, congratulating, tiredness,hoping, happiness, love, thanking, sadness, sorrow, worrying, like, dislike, condolence, condolence, apologizing, pleasure, shock, and longing. The intention of expressive utterance mostlyappear in yearning.

Below are the table of research finding which the writer used as a data source and analyzes the linguistics form of expressive utterance in the BBM status.

KINDS	SOURCE	UTTERANCES	ANALYSIS
Linguistic Form	NOUN PHRASE	Eka Nur / NP / Congratula ting	Happy Mother's day!!! My wonder Mom!!!	The datum is in the form of noun phrase. The core of this phrase is in the noun mother's day . The adjective *happy* as pre-modifier and noun phrase *my wonder mom* as post-modifier becomes the modifier of the whole phrase. Therefore, the datum is categorized into noun phrase.
		Robby Caem/NP/ Congratula tion	Happy Birthday my beloved girl!!!	The datum is in the form of noun phrase. The core of this phrase is in the noun *birthday*. The adjective *happy* as pre-modifier and noun phrase *my beloved girl* as post-modifier becomes the modifier of the whole phrase. Therefore, the datum is categorized into noun phrase
		Danang Ragil/NP/ Congratula tion	Happy Anniversary my beloved sister!!!	The datum is in the form of noun phrase. The core of this phrase is in the noun *anniversary*. The adjective *happy* as pre-modifier and noun phrase *my beloved sisterl* as post-modifier becomes the modifier of the whole phrase. Therefore, the datum is categorized into noun phrase
		Noviana/N P/Congrat ulation	Happy Graduation my Best Friend	The datum is in the form of noun phrase. The core of this phrase is in the noun *graduation.* The adjective *happy* as pre-modifier and noun phrase *my best friend* as post-modifier becomes the modifier of the whole phrase. Therefore, the datum is categorized into noun phrase\
	VERB PHRASE	Ani Febri/VP/y earning	Life goes on!!!	The datum is in the form of verb phrase. The core of this phraseis the verb *go*. This phrase is modified by pre-modifier *life* and determiner *on*. Therefore the datum is categorized into verb phrase.
		Riatami/V P/yarning	Long time no see!!!	The datum is in the form of verb phrase. The core of this phraseis the verb *see*. This phrase is modified by pre-modifier *long time* and determiner *no*. Therefore the

				datum is categorized into verb phrase.
	ADJECTIVE PHRASE	Lucky/AP/ happiness	Our sweet moment !!	The form of the datum is categorized into adjective phrase. It isso because the core of this phrase is the adjective phrase *sweet*. Then, this determiner is *our*. Therefore, thisdatum is categorized into adjective phrase.
		Rio Hariyanto/ AP/love	The beautiful girl !!	The form of the datum is categorized into adjective phrase. It is so because the core of this phrase is the adjective phrase *beautiful*. Then, this determiner is *the*. Therefore, this datum is categorized into adjective phrase.
		Wulan/AP /love	The handsome boy !!!	The form of the datum is categorized into adjective phrase. It is so because the core of this phrase is the adjective phrase *handsome*.Then, this determiner is *the*. Therefore, this datum is categorized into adjective phrase.
	Declarative Sentence	afifvicky/ DS/happiness	We are the champion !!	The datum is in the form of declarative sentence. It is so becausethe subject and the predicate of the sentence are in normal word order. It uses pronoun *we* as the subject, verb *are* as the predicate and *champion* as the object. Therefore, this datum is categorized into declarative sentence.
		elyana/DS/ happiness	We are the family !!	The datum is in the form of declarative sentence. It is so becausethe subject and the predicate of the sentence are in normal word order. It uses pronoun *we* as the subject, verb *are* as the predicate and *family* as the object. Therefore, this datum is categorized into declarative sentence.
		Ayu pratiwi/DS /happiness	They are twin boys !!	The datum is in the form of declarative sentence. It is so becausethe subject and the predicate of the sentence are in normal word order. It uses

				pronoun *they* as the subject, verb *are* as the predicate and *twin boys* as the object. Therefore, this datum is categorized into declarative sentence.
	Imperative Sentences	Rina puji/IS/sorrow	Let me alone please!!!	The form of the datum is imperative sentence. It is so because the sentence is started by the verb *let* as its predicate. The sentence only expresses the predicate. Therefore, this sentence is categorized into imperative sentence.
		Maya Rigayati/IS/sorrow	Close the window please!!!	The form of the datum is imperative sentence. It is so because the sentence is started by the verb *close* as its predicate. The sentence only expresses the predicate. Therefore, this sentence is categorized into imperative sentence.
		Lefi Yuniandri/IS/sorrow	Open the door please!!!	The form of the datum is imperative sentence. It is so because the sentence is started by the verb *open* as its predicate. The sentence only expresses the predicate. Therefore, this sentence is categorized into imperative sentence.

Based on data analysis, the writer analyzes expressive utterances which have different variations, namely: yearning, angry, welcoming, congratulating, tiredness, hoping, happiness, love, thanking, sadness, sorrow, worrying, like, dislike, condolence, apologizing, pleasure, and shock.

Attention Expresive Atterance	Rina Puji/IS/yearning	Hate you !!!	Context : the status is written by *Rina puji* on january 10th, 2017 She writes in her recent update of her account BBM. Locution : She said that she hate someone Illocution : Based on the utterance above, the intention of *Rina Puji* is to show yearning feeling. It's indicated by word *"hate you"*. She hates someone.
	Andi Totok/IS/yearning	Miss you !!!	*Context* : the status is written by *Andi Totok* on january 10th, 2017 He writes in her recent update of her account BBM. *Locution* : he said that he miss someone *Illocution* : Based on the utterance above, the intention of *Andi Totok* is to show yearning

			feeling. It's indicated by word *"miss you"*. he miss someone.
	Lucky/AP/happiness	Our sweet memory!!	*Context* : the status is written by Lucky on january 1st, 2017. He writtes in him recent updates of him account BBM. *Locution* : he said that is our sweet moment. *Illocution* : Based on the utterance above, the intention of *Lucky* is to show happiness feeling. It's indicated by word *"our sweet moment"*.

CONCLUSION

Based on the analysis, the writers draw the following conclusions:

There are seven kinds of linguistic form of expressive utterance found I status update on BBM. The linguistic form are word, noun phrase, verb phrase, adjective phrase, declarative sentence, imperrative sentence.Based on data analysis above, from the whole data, the writer finds 10

types of expressive utterance, the intention of expressive utterance are yearning, anger expression, welcoming, congratulating, tiredness, hoping, happiness, love, thanking, sadness, sorrow, worrying, like, dislike, condolence, condolence, apologizing, pleasure, shock, and longing. The intention of expressive utterance mostly appear in yearning. Total is 100% of expressive utterance. The writer found that the most intention is expression of yearning. This happened because the user of BBM liked to show yearning expression.
